

Antique Automobile Radio, Inc.

Reproduction Bluetooth Radios for Classic Cars

Thank you for your interest in becoming a dealer for our line of reproduction radios. We are very proud of the radios we produce and believe there is nothing like them on the market. Our attention to detail in creating each model we introduce is appreciated by the most selective owners of classic cars. Each radio is produced with 100% new parts that are custom tooled to match the look, feel and overall appearance of the original radio. You never have to cut or modify a dash to fit our radios in the car it was designed. When in a dash, it is almost impossible to tell the difference between a new original radio and our reproduction. The sound performance however, is quite different from the original and is considered to be the best in the classic car radio market. 45 Watts RMS per channel allows even the user of a convertible to hear music clearly. We manufacture Dual Voice Coil speakers designed specifically for our radios to give the customer the best sound quality. AM/FM and Bluetooth® are available on all our radios. Our radios also come with options for accessories to be added such as an auxiliary input and foot switch option to seek stations hands free!

We carefully select our dealers through an application and screening process. We require all dealers to be an established business with at least a significant part of their business being dedicated to classic cars. Please review the dealer application and our 2025 dealer policy listed below. Click the link at the bottom of this to fill out the dealer application and submit it.

Thank you for the interest in Antique Automobile Radio!

2025 Dealer Agreement

We have updated our terms and discounts so please read our 2025 official dealership agreement carefully.

To become a dealer, we require a 3-radio buy-in at full retail cost the first year. The 3 radios must be purchased within 1 year to become an active dealer. After the 3rd radio has been purchased you will receive a dealer discount off all future radio orders and be eligible for discounts on our other parts such as speakers and foot controls. We require at least 3 radios to be purchased every year to keep the dealership account active and maintain the dealer discount. If a higher discount tier has been applied, you will be required to maintain the sales figures of that tier to continue receiving that higher discount (see discount below).

We do offer drop shipping items to your customers for an additional \$5.00 flat rate charge.

Currently all of our radios are at a 10-12 week lead time. Lead times may change from time to time so if you have a deadline for a particular part, please check with us at the time of ordering.

All new dealer's must complete a dealer application on our website at Antiqueautomobileradio.com. Once your account has been approved, you will receive an email from us with a price list with your current dealer pricing, MAP (Minimum Advertised Price) pricing and retail price. When you sign into the website after approval, you can place orders and see your dealer prices and lead times.

Tiered discount policy for Antique Automobile Radio, Inc.

Effective January 1st, 2025

- MAP Policy must be adhered to receive a discount.
- A year is defined by 1 calendar year and will renew at the 1st of every year.
- Orders must be placed within the 1-year time frame.
- Orders that have not shipped will still be applied toward the discount.
- All accounts will be reviewed mid-year to ensure they are on track to meeting their requirements to stay in the current discount tier.
- Discounts are applied based on the total order amount before taxes and shipping fees.

Tiered discounts are described below:

- Less than 3 radios a year, no discount
- Yearly sales under \$100,000, discount: 25% off
- Yearly sales \$100,000-\$300,000, discount: 30% off
- Yearly sales \$300,001+, discount: 35% off

If less than 3 radios are purchased within the year the dealer will become inactive and will have to restart the dealer application process. The dealer application now requires potential dealers to place a 3-radio order at full price before being eligible for dealer discounts. This process helps eliminate 1 time purchases and guarantees our loyal dealers get exclusive pricing on our products!

You can request a status of your discount level at any time via email to sales@radiosforoldcars.com

This tiered discount policy may be subject to periodic review and adjustments based on business objectives and market conditions.

Thank you again for your interest in Antique Automobile Radio and we look forward to hearing from you.

Sincerely,

Daisy Schulz
